

TASS

the alpha **school** system

A centralised school management & portal solution
connecting your entire school community.

WHY TASS?

MORE THAN JUST A SCHOOL MANAGEMENT SYSTEM

OVER 30 YEARS EXPERIENCE

CONNECTING SCHOOL COMMUNITIES

TASS provides a range of solutions in one simple location - creating meaningful connections between every part of your school's community, and supporting administrators, teachers, parents and students.

WORKFLOWS

IMPROVE EFFICIENCY WITH AUTOMATION

Take advantage of TASS' comprehensive set of workflows to digitise and streamline processes, minimise room for error, increase overall efficiency and make tasks easier for every member of your school's community.

DATA INTEGRITY

WE MAKE YOUR DATA HANDLING EASY

As a central point of truth for all Student, Finance, Payroll, and Teaching and Learning data, TASS builds deep connections - removing silos, minimising double handling, and empowering employees with the data to make smarter, more informed decisions.

SECURE APIs

INTEGRATE FOR SUCCESS

Using RESTful APIs, TASS becomes the single hub from which other systems can securely connect and integrate – taking the guesswork out of syncing solutions, keeping your school's data integrity in check and your information safe.

ISO 27001 COMPLIANT

KNOW THAT YOU ARE IN SAFE HANDS

ISO 27001 is the global standard for Information Security Management Systems. TASS became certified to demonstrate our commitment to managing information security risks for our business, products and customers.

FOR THE BUSINESS OFFICE

Let TASS be the backbone of your school's operations with an integrated Student Administration, Financial Administration and Payroll/HRM solution.

Attendance Check-in	Events & Payments	Sick Bay Check-in
Class Homepages	Extra Curricular Sign-up	Text Books on Loan
Class Resources	Homework & Assessment	Timetable

"Our partnership with TASS has been a huge catalyst for digital innovation within our school. Their willingness to work with us and provide support as we transition from largely paper-based workflows has been amazing. The team are experienced and well versed with school practices and processes, which has enabled us to get up and running with their products quickly and seamlessly.

We have seen the TASS offerings grow exponentially in the last few years. Their focus on providing a system that consolidates the tools a school needs, ensures we have a solid foundation to work from.

TASS' commitment to their integration partners, through the API program, has hugely benefited us - like many schools, we have various systems, and being able to utilise TASS as our source has streamlined our workflows."

**LYNDON CALWAY, ICT SERVICES MANAGER
